INTRODUCTION AND EXPLANATORY NOTES

Rationale for the Guidelines

These guidelines are meant for information only and do not take the place of the Staff Regulations and Rules of the relevant Organizations and their duly promulgated administrative issuances. To the extent that the below provisions are in conflict with the Staff Regulations and Rules of the relevant Organizations and their duly promulgated administrative issuances, the Staff Regulations and Rules of the relevant Organizations and their duly promulgated administrative issuances are applicable.

These guidelines are meant to provide information applicable to all staff members serving in the UN System Organizations and have been prepared to adopt a common approach on the most important aspects of managing staff members during the current outbreak.

It is recognized that not all the provisions of the Guidelines may be applicable to all duty stations, especially where they need to consider the provisions of national authorities (e.g. with regard to permits and visas). Therefore, organizations at each duty station are encouraged to adapt the provisions to their local requirements as necessary.

All UN Country Team members are required to implement the provisions of these guidelines.¹

These guidelines will be reviewed periodically, as necessary, by the Chief Executive Board (CEB) Human Resources Network and amended accordingly.

¹ Guidelines and provisions that differ from organization to organization at the same duty station should be carefully reviewed as they would lead to difficulties and further disruption at a time of a potentially severe crisis.

I. General

Novel Coronavirus Virus Disease (COVID-19)

1. A novel (new) coronavirus (COVID-19) was recently detected in Wuhan City, Hubei Province, China, and have since continued to expand. On January 30, 2020, the International Health Regulations Emergency Committee of the World Health Organization declared the outbreak a “public health emergency of international concern” (PHEIC). The outbreak spreads by person-to-person contact and the potential public health threat posed is high.

Applicability

2. These Guidelines are intended for administrative staff (including human resources) who manage staff in the UN system organizations worldwide. They are applicable to all staff members and recognized family members.

3. The Guidelines mainly address the issues which are likely to emerge during the COVID-19 outbreak. They may be up-dated as necessary.

Critical functions

4. For purposes of these Guidelines, staff members are grouped into:

- a) **Critical staff.** Staff members who would be required to perform critical functions in the event of a closure of offices for normal operations due to a COVID-19 outbreak, to ensure continuity of work. These staff members may be requested to carry out such critical functions on premises, in an alternate location or from home; *and*
- b) **Non-critical staff.** Staff members who would not be required to work during an office closure due to a COVID-19 outbreak. Staff members who are not identified as critical but volunteer to work from home or another location will still be considered as non-critical.

5. **Criteria for selecting critical staff.** Heads of Entities are required to designate critical staff. The list of names and respective contact information must be up to date at all times.

6. When selecting staff members as critical staff, Heads of Entities should ensure the following:

- a) Physical security of staff and facilities;
- b) Medical care of staff;
- c) Maintenance of telecommunications and information technology services;
- d) Ability to communicate with other Organizations and Governments;
- e) Maintenance of utilities (electricity, water and sanitation); *and*

- f) Ability to make important technical, operational and policy decisions related to critical aspects of the operations and programme continuity² as well as staff welfare.

7. **Critical functions at the duty station.** Heads of Entities should ensure that critical staff are equipped to assume critical functions and have delegated decision making/signing authority.

8. The number of critical staff should be kept to an absolute minimum, noting the recommended percentage is ten per cent of the total number of staff members in the duty station.³ Critical staff include the following:

- a) Executive Heads or Heads of Offices;
- b) Local Security Management Team;
- c) Medical staff;
- d) Security staff;
- e) Human Resources staff (including counsellors);
- f) Payroll/Finance;
- g) Information and communications; *and*
- h) Any other staff required to carry out critical functions, if necessary and as determined by Heads of Entity.

9. To the extent possible, critical staff should be designated on a voluntary basis. In cases where the number of volunteers is insufficient to guarantee the continued operation during a closure of office, the official with delegated authority may designate additional staff members to report for duty.

10. Staff members designated as critical staff must be notified and informed of the implications of such designation and that they could be required to remain in quarantine for 14 days to limit their possible exposure. Critical staff may be required to submit to the Medical Service, prior to or upon assuming the critical function, information about their health either through a statement or a form provided for this purpose.

Closure of Offices –Officials with delegated authority

11. UN offices may be closed at the instruction of the host government. UN headquarters offices may also be closed by the Secretary-General or the Executive Head of the relevant UN System Organization, following coordination with all Organizations in a duty station. The Resident Coordinator, guided by WHO and following consultation with the UN Country Team, may recommend to the Secretary-General, closure of the country office or offices when deemed necessary. Upon authorization by the Secretary-General or the Executive Head for the closure of such UN offices, the Resident Coordinator or other official with delegated authority will notify the host government and local authorities.

² Heads of Entities may refer to the Programme Criticality Framework for guidance on the implementation of programme and business continuity plans.

³ Minimum presence, preferably working from home when internet connectivity is available.

Information for staff and queries

12. UN system staff members and their families may find the latest information related to COVID-19 at:

<https://www.who.int/emergencies/diseases/novel-coronavirus-2019>

Situation reports can be found at:

<https://www.who.int/emergencies/diseases/novel-coronavirus-2019/situation-reports>

For the latest available information on travel restrictions, please refer to this link from IATA⁴

<https://www.iatatravelcentre.com/international-travel-document-news/1580226297.htm>

13. For further information, staff members at the duty station may contact:

Insert contact details of medical services, executive officers, etc. of all organizations at the duty station

⁴ Please be advised that this information is only as reported to IATA by the countries and may not reflect the absolute latest information. Therefore, travelers should still ensure that they check with the relevant authorities for any countries they plan to travel to and ensure that they would not face any issues as it relates to their specific situation.

II. Leave and attendance

Attendance

14. **When offices are open.** All staff members are required to report for duty. Unauthorized absence from the office will be dealt in accordance with rules governing such absence. Heads of Entities may authorize flexible working arrangements or prescribe alternate work arrangements for non-critical staff including the possibility of telecommuting (working from home or alternate location) to limit the possible exposure to COVID-19.
15. **When offices are closed.** Only critical staff shall have access to the offices. Critical staff will be required to report for duty to perform the critical functions either at the offices or from an alternate location or from home.
16. Unauthorized absences by critical staff will be dealt in accordance with the Staff Regulations and Rules and duly promulgated administrative issuances.
17. Non-critical staff who are instructed not to report for duty and who do not voluntarily work from home or another location, will be placed on special leave with full pay (SLWFP). These staff members will not be required to exhaust annual leave before being placed on SLWFP.

Compensatory time-off

18. **When offices are closed.** Locally- and internationally-recruited critical staff will receive compensatory time-off (CTO) for the time they are requested to report to duty be it ***within premises, in an alternate location or from home.***
19. Heads of Entities will be accountable for ensuring that CTO accrued during the closure period:
- a) is taken during the twelve months following the month in which the offices are reopened; *and*
 - b) at least five consecutive CTO days are taken during the first six weeks following the day in which the offices are reopened.
20. Under no circumstances, will compensation accrued during the closure period take the form of additional cash payment.

Flexible working arrangements and Alternate work arrangements

21. Flexible working arrangements, such as telecommuting from within or outside the duty station, are voluntary and at the request of the staff member.⁵
22. Alternate work arrangements, which are different from flexible working arrangements, may also involve working from a different location, within and outside the duty station,

⁵ Flexible working arrangements for the UN Secretariat are governed by ST/SGB/2019/3 and ST/IC/2019/15.

including from home, is at the request of the Organization and as such are not considered flexible working arrangements.

23. Taking into consideration the local health advisories and the WHO guidelines, and as far as feasible, flexibility will be exercised to authorize and implement flexible and alternate working arrangements.

24. In order to address the needs of the United Nations Organizations in response to the COVID-19 outbreak, Heads of Entities may:

- a) temporarily reassign a staff member to a UN office in another location to perform his/her or other duties. Travel to the location and DSA will be payable if the location is outside the duty station;
- b) temporarily allow a staff member to carry out his/her or other duties, on a telecommuting basis. If the telecommuting is taking place at the request of the staff member, no travel or DSA is applicable. However, if the request is at the initiative of the Organization as an alternate work arrangement, travel and DSA may be applicable;
- c) eligible staff members may be given the option to combine telecommuting with Home Leave (HL). If local authorities of the HL country do not authorize entry or medical facilities are not adequate, HL may be exercised at an alternate location subject to the maximum cost of travel to the place of HL; *and*
- d) temporarily request a staff member to carry out his/her or other duties from home.

Annual leave

25. **When offices are open.** Taking into consideration the local health advisories and the WHO guidelines, managers may exercise flexibility in authorizing annual leave and advance annual leave to staff members that request leave to limit their possible exposure to COVID-19.

26. Staff members who travel outside the duty station during annual leave must be aware that, re-entry into the duty station or departure from the countries to which they travel may not be possible. When staff members are unable to return:

- a) if feasible, at the request of the staff member, he/she may be authorized to carry out his/her duties on a telecommuting basis. No DSA will be payable;
- b) if possible, at the request of the staff member, he/she may report to duty at a UN system Office in the travel destination. No DSA will be payable;
- c) if possible, the staff member may be required to report to duty at a UN system Office in another location. Travel to the location and DSA will be payable; *or*
- d) if neither option a), b) or c) is possible, the staff member may request annual leave, advance annual leave or special leave without pay (SLWOP).

27. **When offices are closed.** Staff members who are on annual leave at the time the offices are closed, will be placed on SLWFP as from the day they were due to report for duty.

Medical evacuation, sick leave & inability to perform duties related to COVID-19

28. Medical evacuation of staff members and their eligible family members may be authorized under the applicable provisions.⁶
29. In cases of COVID-19 affecting a staff member through contact with a suspected or confirmed COVID-19 case, staff/family members must immediately notify their supporting medical service. Staff members should not report to duty.
30. **When offices are open.** Staff members who are unable to perform their functions:
- a) **by reason of illness**, and in particular staff members with flu-like symptoms including for COVID-19, should refrain from reporting for duty and seek appropriate medical attention, and will be required to meet the regular requirements for requesting certified sick leave or
 - b) **by reasons of quarantine** on the recommendation of the medical service or at the request of local authorities may request SLWFP.
31. **When offices are closed.** Staff members who are on sick leave at the time the offices are closed, will be placed on SLWFP as from the day they were expected to report for duty following exhaustion of their approved certified/uncertified sick leave.

Maternity, paternity and adoption leave

32. **When offices are closed.** Staff members who are on maternity, paternity or adoption leave at the time the offices are closed, will be placed on SLWFP as from the day they were due to report for duty.

Special leave without pay

33. **When offices are open.** Flexibility will be exercised in authorizing special leave without pay (SLWOP) to staff members except for critical staff.
34. **When offices are closed.** Staff members who are on SLWOP at the time the offices are closed, will be placed on special leave with full pay (SLWFP) as from the day they were due to report for duty.

⁶ Medical evacuation for the UN Secretariat is governed by ST/AI/2000/10.

III. Travel on official business

35. The Medical Service Director (local UN Medical Doctor or designate), may require an "exit medical examination" prior to leaving an affected duty station or country.

Official business travel

36. **Planned travel.** The decision as to whether to travel to or from an affected duty station should be made in accordance with the national travel advisory set by the host country and taking into consideration WHO guidelines. This should be in conjunction with the local Senior Crisis Management Structure relevant to the duty station.

37. Planned travel on official business to or from an affected duty station that has not been initiated and which is considered non-critical may be deferred. Travel on official business to or from an affected duty station should be planned and authorized in accordance with the needs of the Organization as determined by the Head of Entity in line with all current security measures in place.

38. **Initiated travel.** In the event that the authorized itinerary must be changed for reasons related to COVID-19 travel restrictions, the following will apply:

- a) **Departure from official business destination not possible.** If during the authorized travel on official business, local authorities or UN guidelines do not allow departure, DSA will remain payable until departure is authorized and up until the first available flight.
- b) **Re-entry into duty station not possible.** If authorities at the duty station or UN guidelines do not allow re-entry, DSA will continue to be payable until re-entry to the duty station is possible and up until the first available flight.

Where required due to operational and/or medical reasons, staff members travelling on official business could be sent to an alternative location. DSA for that location will be payable.

- c) **Staff member is sick while on travel on official business.** If the staff member falls sick, while on travel on official business, including with COVID-19, DSA, if applicable, would continue to be payable. However, if hospitalized, DSA will be reduced to one third. See above regarding staff member's authorized absence.
- d) **Staff member is quarantined.** If the staff member is quarantined while on official business, DSA will remain payable under the same conditions as c) above. See paragraphs above regarding staff member's authorized absence.
- e) **Staff member dies.** In the unfortunate event that a staff member dies while on travel on official business, DSA will stop as from the date of death. The UN system office where he/she was working (or the nearest UN/UNDP office) will assume the responsibility for coordinating the actions required and serve as the link between the parent office and the family of the deceased, providing the family assistance throughout the difficult period following the death.

Home leave and family visit travel

39. Flexibility will be exercised to authorize advance and deferred home leave (HL) and family visit (FV), and to allow separate HL travel of staff members and eligible family members, and to exercise HL/FV at an alternate location, if local authorities of the HL/FV country do not authorize entry or medical facilities are not adequate, and subject to the cost duty station-recognized place of HL/FV duty station.

40. Staff members must be aware that respective local authorities or UN/Organization guidelines may at any time prevent either departure from the HL/FV destination or re-entry to the duty station. In such cases, staff members should take this into consideration when accepting the lump sum option, as in such cases they agree to waive all entitlements relating to HL and FV travel that would otherwise have been payable, i.e. there shall be no reimbursement of lost tickets when the staff member has availed of the lump sum option. Staff members are encouraged to purchase travel insurance when travelling under the lump sum option. When the organization purchases the tickets for HL and FV travel, then the organization assumes the liability for changes in itinerary due to travel restrictions.

41. **When offices are open.** When staff members are not authorized by the local authorities or UN/Organization Guidelines to depart from the HL/FV destination and they or any of their household members are not sick with suspected COVID-19:

- a) if feasible, at the request of the staff member, he/she may be authorized to carry out his/her duties on a telecommuting basis. No DSA will be payable;
- b) if possible, at the request of the staff member, he/she may report to duty at a UN System Office in the same HL/FV location. No DSA will be payable.
- c) if possible, they may be required to report to duty at a UN System Office in another location. Travel to the location and DSA will be payable; *or*
- d) if neither option a), b) or c) is possible, they may request additional annual leave, advance annual leave or special leave without pay (SLWOP). In exceptional circumstances, SLWOP may be granted if requested by a staff member for a limited period of time. For example, a staff member who has exhausted all annual leave balance and who initiated travel before travel restrictions were put in place.

42. Staff members who fall sick, including COVID-19, during HL/FV may be granted certified sick leave upon submission of a medical certificate to the Medical Director or designate.

43. Staff members who are unable to return by reason of COVID-19 affecting a member of his/her household, or because of quarantine affecting the household/area, will be placed on SLWOP, upon evidence for the necessity of this measure, acceptable to the Medical Director or designate.

44. **When offices are closed.** Staff members who are on HL/FV travel at the time the offices are closed, will be placed on SLWOP as from the day they were due to report for duty. No DSA will be payable.

Education grant travel

45. During a recognized COVID-19 outbreak, flexibility will be exercised to authorize advance and defer education grant travel (EGT).

46. Staff members must be aware that respective local authorities may at any time prevent either departure from the EGT destination or re-entry to the duty station. In such cases, staff members should take this into consideration when accepting the lump sum option, as in such cases they agree to waive all entitlements relating to EGT that would otherwise have been payable.

IV. Recruitment and appointments

Recruitment and reassignment

47. The decision as to whether to initiate recruitment and reassignment of staff should be made in accordance with the national travel advisories set by the host country and taking into consideration WHO guidelines. This should be done in conjunction with the Senior Crisis Management Structure relevant to the duty station.

48. Recruitment and reassignment of staff:

- a) will be carried out in accordance with interests, needs and priorities of the Organization;
- b) initiated in direct support of critical functions and in connection with COVID-19 will be given priority and the process will be expedited to the extent possible; and
- c) will be decided upon on a case-by-case basis by Heads of Entities, for individuals who are not envisaged to perform critical function or in support of COVID-19.

Extension of appointment

49. Every effort should be made to renew staff members' appointments one month in advance. Conversely, staff members should be informed of non-renewal of their appointments at least one month prior to expiry dates when possible. When a staff member's appointment is extended solely because the separation cannot be processed due to COVID-19 related travel restrictions and/or office closure, such extension shall not give rise to any further entitlement to salary increment, annual leave, sick leave, maternity leave, paternity leave or home leave, although credit towards repatriation grant may continue to accrue if the staff member has not returned to his or her home country.

50. The heightened alert situation shall not be a factor in deciding on renewal and non-extension of appointments, including extension beyond retirement age.

Staff members holding permits/visas

51. **Repatriation travel and shipment.** If a staff member holds a visa/permit and is not requesting residency status, he/she should be repatriated upon the expiration of his/her contract, and as soon as practicable. If a staff member chooses to remain in the duty station for a longer period, this will not give rise to additional entitlements or further responsibility by the Organization. The two-year time limit for submission of a claim for repatriation grant upon separation will be suspended during any office closure period due to an COVID-19 outbreak.

52. If departure from the duty station is possible, but entry to the repatriation destination is not, a staff member can opt to be repatriated to a third location. In such cases, the cost of repatriation should not exceed the amount normally payable. Please refer to staff rule 7.1 (b).

53. **Extension of appointment.** Depending on the circumstances, an appointment of an international staff member holding a permit/visa in the duty station and who is not requesting residency status in the host country, could be extended until departure/entry is possible and up until the first travel opportunity or flight is available to the staff member. Such extension would be solely for administrative reasons and would not give rise to any further entitlement to salary increment, annual leave, sick leave or home leave, but credit towards repatriation grant may continue to accrue. In the event of death during the period of the extension, the period prior to the staff member's death may be considered in the determination of the death benefit, if applicable.

V. Salary, benefits and entitlements

Payroll and salary advances

54. **When offices are open.** Organizations may authorize salary advances in such amount as the official with delegated authority may deem appropriate. Salary advances shall be liquidated at a rate as determined by the Comptroller's (payroll) office. As far as feasible, the recovery start date and rate should be communicated to the staff member at the time the advance is individually authorized.

55. **When offices are closed.** Organizations should consult with the Controller's (payroll) office to determine the relevant arrangements when payments are not made through wire transfer.

Payment of entitlements that require original supporting documentation

56. **When offices are closed.** When payment of entitlements is dependent on submission of the appropriate support documentation, the time limits for presentation of supporting documentation will be suspended during any office closure period due to an COVID-19 outbreak.

Danger pay

57. Where authorized by the Chairman of the International Civil Service Commission (ICSC), staff members performing medical functions in non-protected environments where they are specifically at risk to their life when deployed to deal with public health emergencies as declared by the WHO, as defined in Annex II of the 2011 report of the ICSC (A/66/30), are entitled to danger pay. On an exceptional basis, Danger Pay may be approved for non-medical staff who are involved in the handling of potentially hazardous specimens or work directly with communities in designated isolation zones specified by WHO.

58. **Amounts.** The current rates are:

a) ***International Staff members:***

- i) *monthly, US\$1600; and*
- ii) *daily, US\$52.60; and*

b) ***Locally-recruited staff members:***

- i) *Applicable monthly amount as calculated by the ICSC; and*
- ii) *Applicable daily amount as calculated by the ICSC.*

Health insurance

59. Staff members and their eligible family members who are enrolled in the UN insurance programmes are covered for expenses incurred for qualified medical treatment of COVID-19 according to their insurance plan benefits. Staff members and their family members not

enrolled in a medical plan indicated herein should ensure that their insurance plans cover sickness associated with COVID-19.

60. **When offices are closed.**

- a) ***Staff members newly recruited or reassigned and eligible for health insurance:***
 - i) *who arrive during closure of offices due to an COVID-19 outbreak:* applications will be accepted within 31 days of the date offices re-open; insurance will be effective from the first day of the qualifying contract; and
 - ii) *who arrive before closure of offices due to an COVID-19 outbreak:* every effort should be made to file applications as soon as possible. Should the offices close due to an COVID-19 outbreak within the 31-day time limit, applications will be accepted within 31 days of the date the offices re-open; insurance will be effective from the first day of the qualifying contract.
- b) ***Retiring staff members and eligible for ASHI***
 - i) *who separate during closure of offices due to an COVID-19 outbreak:* ASHI applications will be accepted within 31 days of the date the offices re-open; active service coverage will be continued in the interim; *and*
 - ii) *who separate before closure of offices due to an COVID-19 outbreak:* every effort should be made to file ASHI applications as soon as possible. Should the offices close due to an COVID-19 outbreak within the 31-day time limit, ASHI applications will be accepted within 31 days of the date the offices re-open; active service coverage will be continued in the interim.

Life insurance

61. Staff members who are enrolled in the United Nations Group life insurance are covered for death as a result of COVID-19, in accordance with the existing policy.

VI. Death of a staff member

62. It cannot be over-emphasized that all staff involved in making the various arrangements must use their utmost discretion, tact and sensitivity, particularly when dealing with the family of the deceased. In case of queries from the family or insurance companies, it is recommended that complete documentation on the procedures followed should be kept in a confidential file.

63. When a staff member, or his/her accompanying spouse or dependent child dies, the Human Resources Office will assume responsibility for coordinating the actions required and serves as the link between the office concerned and the family of the deceased, providing the family assistance throughout the difficult period following the death.

Death benefit

64. In the case of death **of a staff member**, the date on which entitlement to salary, allowances and benefits shall cease shall be the date of death, unless there is a surviving spouse or dependent child and the deceased staff member had an appointment of one year or longer or had completed at least one year of service with the Organization, irrespective of the appointment type. In this event, the date shall be determined in accordance with the following schedule:

<i>Completed years of service in the Secretariat</i>	<i>Months of salary</i>
3 or less	3
4	4
5	5
6	6
7	7
8	8
9 or more	9

65. The months of salary referenced above may be made in a lump sum as soon as the pay accounts and related matters can be closed. Such payment shall be made in equal parts only to the surviving spouse and dependent children.

66. For:

- a) **staff in the Professional and higher categories**, the payment shall be calculated on the basis of the staff member's gross salary less staff assessment;
- b) **staff in the Field Service category**, the payment shall be calculated on the basis of the staff member's gross salary, less staff assessment plus language allowance, if any;
- c) **staff in the General Service and related categories**, the payment shall be calculated on the basis of the staff member's gross salary, including: language allowance, if any; and in respect of staff in receipt of non-resident's allowance,

such non-resident's allowance, less staff assessment applied to the gross salary alone.

Payments

67. Priority will be given to arrange for the survivors/designated beneficiaries to receive any payment (or an advance) against any salary, allowances and benefits standing to the credit of the staff member as of the date of death.

After-service health insurance

68. **When offices are closed.** Family members who are eligible for ASHI must normally make application for ASHI within 31 days of staff member's death. If

- a) **staff member dies during closure of offices due to an COVID-19 outbreak:** ASHI applications will be accepted within 31 days of the date the offices re-open; active service coverage will be continued in the interim; *and*
- b) **staff member dies before closure of offices due to an COVID-19 outbreak:** every effort should be made to file ASHI applications as soon as possible. Should the offices close due to an COVID-19 outbreak within the 31-day time limit, ASHI applications will be accepted within 31 days of the date the offices re-open; active service coverage will be continued in the interim.

Life insurance

69. **When offices are closed.** There is no prescribed time frame for submitting claims.

Appendix D

70. Compensation will be provided to eligible staff members in the event of death, injury or illness considered to be attributable to the performance of official duties on behalf of the United Nations. All claims for compensation will be subject to the review of the UN Advisory Board on Compensation Claims (ABCC) or (insert other relevant claims authority).

Pension Fund benefits

71. **When offices are closed.** The UNJSPF has offices in New York and Geneva and would therefore be able to provide services to participants and beneficiaries from both offices. In an extreme situation the UNJSPF would be able to implement its disaster recovery policy for payroll payments to beneficiaries.

Permits and visas

72. A family member's authorized stay at the duty station normally expires upon staff member's death. The same applies to any household employee whose visa is derived from the status of the staff member.

73. Most national authorities allow staff members and their families a certain period (e.g. 30 days) after the date of separation in which to leave the country, or adjust their status. If additional time is required, the family members should contact the relevant personnel responsible for permits/visas at the duty station for guidance in requesting extension of the normal grace period.

Education grant

74. When a staff member dies while in service **after** the beginning of the school year, no prorating or disqualification will take place in respect of any element of the education grant (EG) to which the staff member would have been entitled had he/she lived to the end of the school year, including boarding expenses or a flat sum for board and EGT.

75. As a result, no recovery from prorating the amount of the grant based on a period of service shorter than the normal school year will be initiated when processing the separation of the deceased staff member. The EG related forms may be completed by the surviving spouse, the legal representative of the child for whom the EG or EGT is paid, or by the child for whom the claim is requested, if 18 years of age or older. If the school year ends when the final payment has already been processed, settlement will be made as a direct payment to the survivor.

76. **When offices are closed.** The time limit to file EG claims will be suspended during any office closure period due to an COVID-19 outbreak.

Repatriation grant⁷

77. **When offices are closed.** Family members who are eligible for payment of repatriation grant, must normally claim and provide evidence of relocation within two years of the staff member's death. This time limit will be suspended during any office closure period due to an COVID-19 outbreak.

Repatriation travel and shipment⁸

78. Family members who are entitled to repatriation should initiate travel and/or shipment of personal effects as soon as practicable. If a family member chooses to remain at the duty station for a longer period, this will not give rise to additional entitlements or further responsibility by the Organization. The two-year time limit will be suspended during any office closure period due to an COVID-19 outbreak.

Repatriation of remains or local interment

⁷ International staff members only.

⁸ International staff members only.

79. Before making any arrangements, it is necessary that the family be consulted whether they wish: local burial; cremation and repatriation; *or* embalming and repatriation. In all instances, the local regulations and laws and international health regulations shall apply while the specific instructions of the family of the deceased should be observed as closely as possible. However, during an COVID-19 outbreak, the repatriation of a deceased staff member (or his/her family member) could be delayed or not authorized.
