

Would you like to inspire others, share knowledge and drive change?

Join Together, a 4-month mentoring programme that connects colleagues across job networks and levels, duty stations and UN system entities.

Mentors and mentees will be paired through an innovative online platform. Virtual meetings are encouraged. Participants are encouraged to meet every 3 weeks between March and end-July.

Call for mentors

In our open approach, staff of many levels can serve as mentors - from General Service to ASG and USG levels. We are looking for mentors who are passionate about the United Nations and would like to help other colleagues develop and learn.

As a mentor you will get the chance to:

- Develop your leadership skills
- Reflect on your career direction
- Connect virtually with someone new – at duty stations across the world
- Gain insight and share perspectives
- Reduce isolation if you are working from home

How does it work?

- ✓ Participants complete an online questionnaire with mentee or mentor preferences
- ✓ The platform uses an algorithm to suggest pairings. Both parties participate in the final selection process.
- ✓ HR project teams in DMSPC and ESCAP will support through orientation webinars and guidance

Mentees and mentors from all job networks are invited.

Share your story and inspire others – register as a mentor today!

*Mentors can also register as mentees. You can experience both roles!

Registration:

For Non-Secretariat staff: 15 – 26 February
For Secretariat staff: 15 February – 5 March
The mentoring period will run from March through July
