

Would you like to inspire others, share knowledge and drive change?

Join Together, a 4-month mentoring pilot that connects colleagues across job networks, job levels and duty stations.

Mentors and mentees will be paired through an innovative online platform. Virtual meetings are encouraged, and participants can determine their frequency and length.

Call for mentors

In our open approach, staff of many levels can serve as mentors - from General Service to ASG and USG levels. We are looking for mentors who are passionate about the United Nations and would like to help other colleagues develop and learn.

As a mentor you will get the chance to:

- Develop your leadership skills
- Reflect on your career direction
- Connect virtually with someone new – at duty stations across the world
- Gain insight and share perspectives
- Reduce isolation if you are working from home!

How does it work?

- ✓ Participants complete an online questionnaire with mentee or mentor preferences
- ✓ The platform uses an algorithm to suggest pairings. Both parties participate in the final selection process.
- ✓ HR project teams in DMSPC and ESCAP will support through orientation webinars and guidance

Mentees will be from these job networks:

- POLNET: Political, Peace and Humanitarian Network
- DEVNET: Economic, Social and Development Network
- INFONET: Public Information and Conference Management Network

Mentors will be from all job networks.

Share your story and inspire others – register as a mentor today!

*Mentors can also register as mentees. You can experience both roles!

Registration for mentors 14 – 28 August

The mentoring period will run from September through December 2020
