

ICD-10 Codes for Zika Virus
United Nations Medical Services Division
Updated 21 March 2016

Code Description	Code(s)	Specify in Notes Field of "Diagnosis" Section in EarthMed	Additional Coding Instructions ¹
Zika Virus Disease			
Zika virus disease, unspecified	U06.9	"Confirmed ZIKV" ²	
Mosquito-borne viral fever, unspecified	A92.9	"Probable ZIKV" ²	<ul style="list-style-type: none"> In case of contact with or exposure to Zika virus³, use in conjunction with code Z20.8.
Factors influencing health status and contact with health services			
Special screening examination for other viral diseases	Z11.5	"ZIKV"	
Contact with and exposure to other communicable diseases	Z20.8	"ZIKV"	
Carrier of other infectious diseases	Z22.8	"ZIKV"	
Pregnant state, incidental	Z33		
Pregnancy, childbirth and the puerperium			
Maternal care for (suspected) central nervous system malformation in fetus	O35.0		<ul style="list-style-type: none"> In case of contact with or exposure to Zika virus, use in conjunction with code Z20.8 In case of confirmed Zika virus disease, use in conjunction with code U06.9
Maternal care for (suspected) damage to fetus from viral disease in mother	O35.3		<ul style="list-style-type: none"> In case of contact with or exposure to Zika virus, use in conjunction with code Z20.8 In case of confirmed Zika virus disease in mother, use in conjunction with code U06.9
Certain conditions originating in the perinatal period			
Fetus and newborn affected by maternal infectious and parasitic diseases	P00.2	"ZIKV"	
Congenital malformations, deformations and chromosomal abnormalities			
Microcephaly	Q02		<ul style="list-style-type: none"> In case of contact with or exposure to Zika virus, use in conjunction with code Z20.8 In case of confirmed Zika virus disease, use in conjunction with code U06.9
Diseases of the nervous system			
Guillain-Barré syndrome	G61.0		<ul style="list-style-type: none"> In case of contact with or exposure to Zika virus, use in conjunction with code Z20.8 In case of confirmed Zika virus disease, use in conjunction with code U06.9
Other neurological syndromes	G00-G99; R25-R29		<ul style="list-style-type: none"> In case of contact with or exposure to Zika virus, use in conjunction with code Z20.8 In case of confirmed Zika virus disease, use in conjunction with code U06.9

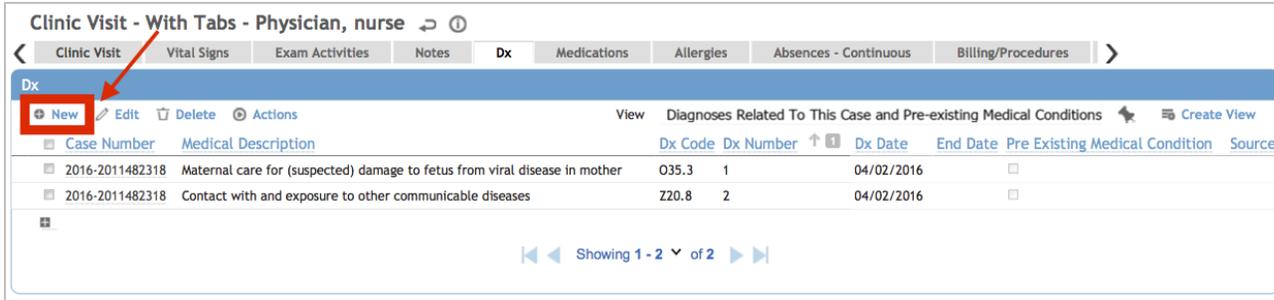

¹ See following page of this guide for instructions on coding for Zika virus and associated conditions in EarthMed.

² Consult WHO Zika virus disease case definitions at <http://www.who.int/csr/disease/zika/case-definition/en/>

³ See <http://who.int/csr/disease/zika/case-definition/en/> for more information on what constitutes an epidemiological link to Zika virus.

Instructions for Using ICD-10 Codes in EarthMed to Record & Report Zika Cases

1. Open the patient's file in EarthMed and create a new diagnosis in the “Dx” (Diagnosis) tab:

Clinic Visit - With Tabs - Physician, nurse

Clinic Visit Vital Signs Exam Activities Notes **Dx** Medications Allergies Absences - Continuous Billing/Procedures

Dx

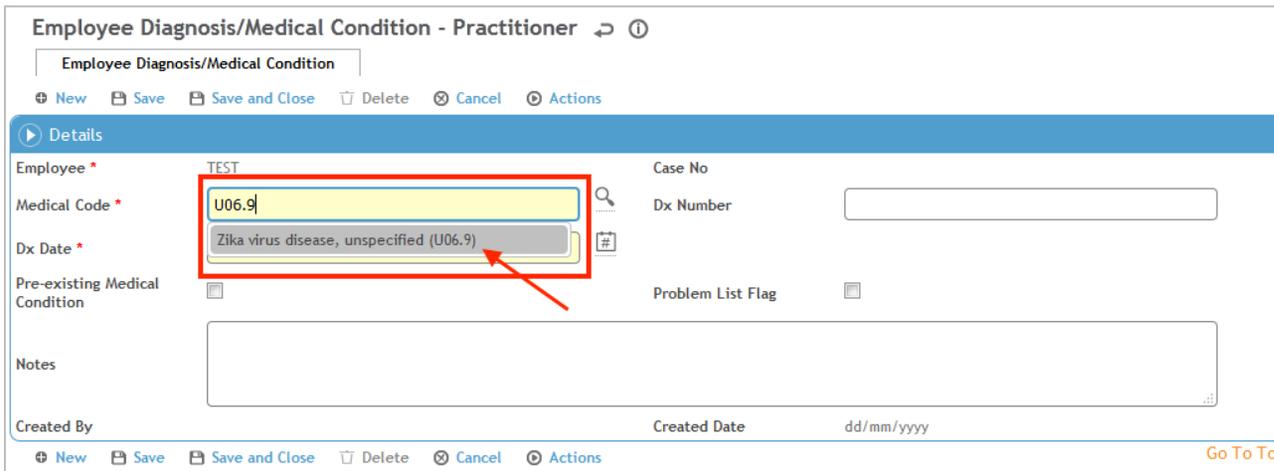

New Edit Delete Actions

View Diagnoses Related To This Case and Pre-existing Medical Conditions Create View

Case Number	Medical Description	Dx Code	Dx Number	Dx Date	End Date	Pre Existing Medical Condition	Source
2016-2011482318	Maternal care for (suspected) damage to fetus from viral disease in mother	O35.3	1	04/02/2016		<input type="checkbox"/>	
2016-2011482318	Contact with and exposure to other communicable diseases	Z20.8	2	04/02/2016		<input type="checkbox"/>	

Showing 1 - 2 of 2

2. Refer to the “ICD-10 Codes for Zika Virus” chart on the previous page of this instruction guide to identify the appropriate code for your diagnosis. On the new diagnosis page in EarthMed, type this code number into the “Medical Code” field. Select the code by clicking on the text that appears in the drop-down menu:

Employee Diagnosis/Medical Condition - Practitioner

- For conditions associated with contact with or exposure to Zika virus⁴, be sure to enter separate diagnoses for the code of the associated condition (e.g., G61.0 for Guillain-Barré, Q02 for microcephaly, etc.) **and** Code Z20.8 ("Contact with and exposure to other communicable diseases"). Remember to indicate "ZIKV" in the Notes for Code Z20.8 to indicate exposure to Zika:

Clinic Visit - With Tabs - Physician, nurse

⁴ An epidemiological link to Zika is considered to be "contact with a confirmed case, or a history of residing in or travelling to an area with local transmission of Zika virus within two weeks prior to onset of symptoms." See <http://who.int/csr/disease/zika/case-definition/en/> for more information.

⁵ World Health Organization interim case definitions for Zika virus disease can be found here: <http://who.int/csr/disease/zika/case-definition/en/>
