SUBJECT: **UN Staff Health and Wellness Survey – Results and Interactive Dashboard**

OBJET:

1. The Department of Operational Support is pleased to share the results of the UN Secretariat Staff Health and Wellness Survey 2021. The survey, coordinated by the Public Health team in the Division of Healthcare Management and Occupational Safety and Health (DHMOSH), aimed to collect baseline information on the health and wellness status of Secretariat personnel globally. We thank all Secretariat personnel who took the time to contribute to this survey.
2. A total of 4,620 (11 per cent response rate) of Secretariat personnel participated in this survey, including personnel from peacekeeping operations and special political missions. A summary of key findings is available at: <https://hr.un.org/page/un-secretariat-staff-health-wellness-survey-2021>, and the full results for the entire survey cohort are attached to this memorandum.
3. In addition, a power BI dashboard, which allows survey results to be filtered by entity, demographics, health indicators and other characteristics, is available on iSeek at: <https://iseek.un.org/UN-Staff-Health-and-Wellness-Dashboard>. This 13-page interactive dashboard provides granular data for your in-depth analysis. The Public Health team will reach out to individual entities, as needed, to organize individual meetings to discuss survey results and provide support regarding health promotion programmes for your staff.
4. Please note that the current results focus solely on the physical health questions of the survey; a separate analysis of the mental health-related questions will be released in a later phase.
5. For any questions, please contact DHMOSH at email: [dos-dhmosh-public-health@un.org](mailto:dos-dhmosh-public-health@un.org).
6. Kindly distribute this information as appropriate.

cc: Lisa Buttenheim
