

DIVISION OF HEALTH-CARE MANAGEMENT & OPERATIONAL SAFETY & HEALTH

PUBLIC HEALTH LEADERSHIP SERIES

Session 3: USE OF DISEASE DATA TO GUIDE PUBLIC HEALTH ACTIONS

Lesliann Helmus is currently the Associate Director for Surveillance in the Division of Health Informatics and Surveillance at the US's Centers for Disease Control and Prevention (CDC). In this capacity she coordinates disease surveillance activities for the division, coordinates collaborative surveillance and informatics initiatives and provides consultation on surveillance and informatics strategies for other programs at CDC and in other US federal, state, local and territorial agencies. For three years prior to assuming this role, she served as the program manager for the National Notifiable Diseases Surveillance System (NNDSS) at CDC. Before joining CDC in 2014, she served in state-level public health surveillance programs for the US.
